Education

The London School of Economics and Political Science, London, UK

Sep 2025 – Sep 2026

MSc Applied Social Data Science

- Courses: Applied Machine Learning, Data Science, Distributed Computing for Big Data, Computer Programming, Causal Inference
- Societies: Methodology Society (President), Data Science Society, Consulting Society
- Dissertation: The Role of NLP-Derived Uncertainty Indices in Time-Series Demand Forecasting Models

Clemson University, South Carolina, US

Aug 2021 – May 2025

BSc (Honours) Psychology — Minors: Global Politics, Criminal Justice — GPA: 4.00/4.00

- Relevant Courses: Linear Models and Applied Econometrics, Data Science, Advanced Statistics and Research Methods II, Quantitative Methods III, Statistical Methods I, Advanced Probability & Statistics, Problem Solving in Mathematics
- Societies: Sailing Team, Women's Rugby, Italian Conversation, Psi Chi – International Honor Society in Psychology, Phi Kappa Phi Honor Society, Kappa Delta Sorority

Experience

Financial Analyst (Data Science)

Mar 2024 – Jul 2026

A Perfect Balance Bookkeeping — USA

- Built Python ML pipelines (scikit-learn) incorporating geospatial features to automate order classification for financial reporting, saving 15 hours of manual work per month
- Improved sales-tax calculation accuracy across 20 US states, applying close attention to detail to resolve state-boundary edge cases

Content Creator

Sep 2025 – Jul 2026

LSE Department of Methodology — London, UK

- Created Instagram content, including graphics designed in Canva and short-form edited video, to explain applied statistical and methodological concepts for a student audience
- Grew Instagram following by 24.26% over 5 months through consistent content planning and audience-focused storytelling
- Covered departmental events and produced behind-the-scenes content, maintaining an organized content calendar in coordination with faculty and society leadership

Social Media Intern

Jan 2024 – Jun 2024

University of Nicosia — Nicosia, Cyprus

- Created and edited short-form video content (Reels and TikToks) and carousel posts for the university's Instagram and TikTok accounts, turning campus stories into engaging content
- Wrote copy and storyboarded carousel posts to communicate campus initiatives and events clearly to a student audience
- Worked independently to plan and publish content across two platforms, staying organized and proactive to keep output consistent

Quantitative Intern

Oct 2024 – May 2025

Department of Political Science, Clemson University — USA

- Worked with complex data to model organizational-membership likelihood via OLS regression across 12 self-structured predictor variables
- Created data visualizations and articulated statistical findings clearly and concisely for policy stakeholders, translating technical results into actionable takeaways

Research Assistant

Aug 2021 – May 2025

Clemson University College of Behavioral, Social, and Health Science — USA

- Meticulously created, structured, and analyzed datasets of 300+ observations using advanced statistical modelling in Python, co-authoring two peer-reviewed publications and presenting findings at 8 national academic conferences

Research Intern

May 2023 – Dec 2023

Medical University of South Carolina (MUSC) — USA

- Collaborated with cross-disciplinary teams of clinicians to evaluate forensic and personality assessment data, improving the reliability of key psychological assessments for wider populations

Applied Projects

Project MayDay

May 2026

London School of Economics & Political Science — London, UK

- Engineered a Python targeting model achieving 0.819 AUC on conversion-probability estimation for a live A/B test, directly informing growth targeting decisions
- Applied offline gains analysis to isolate 2 high-CTR, low-value segments to update campaign hypotheses

Aviation Data Science Simulation

Feb 2026

British Airways — London, UK

- Built a time-series forecasting model that predicted airport lounge demand with a MAPE of 12%, improving demand planning from historical data
- Developed a classification model to segment travelers into categories prior to analysis

AI & Analytics Stratathon Competition

Oct 2025

OC&C Strategy Consultants — London, UK

- Achieved Runner-Up (2nd Place) in OC&C's Stratathon: a strategy-analytics case competition combining data analysis, structured thinking, and analytical problem solving under tight deadlines
- Collaborated as a positive, proactive team player across a 3-person team to analyze how the business operates and address a strategic business question, then delivered a client-facing presentation with data-driven sales growth recommendations
